

Vertical: Game Design

Clase: Clase 2

Docente: Martin M. Romero

Clase 2: Documentación en el Diseño de Videojuegos

Agenda de la clase #2

Introducción al Diseño de Videojuegos

- Revisión ejercicio práctico sobre Historia de los videojuegos.
- Documentación en videojuegos (Pitch, High Concept, Treatment, GDD).
- Diferentes formas de documentar.
- Revisión de ejemplos reales de documentos.
- Enunciado del ejercicio práctico sobre documentación de diseño.

Martin Romero

Repaso

Documentación en el Diseño de Videojuegos

¿Que es un documento de Diseño?

- Es una descripción escrita de un videojuego.
- Diseñar también significa planificar y no se puede planificar en el aire. (Esto es equivalente a un Business Plan)
- Este proceso de escribir documentación ayuda a los diseñadores a pulir sus ideas

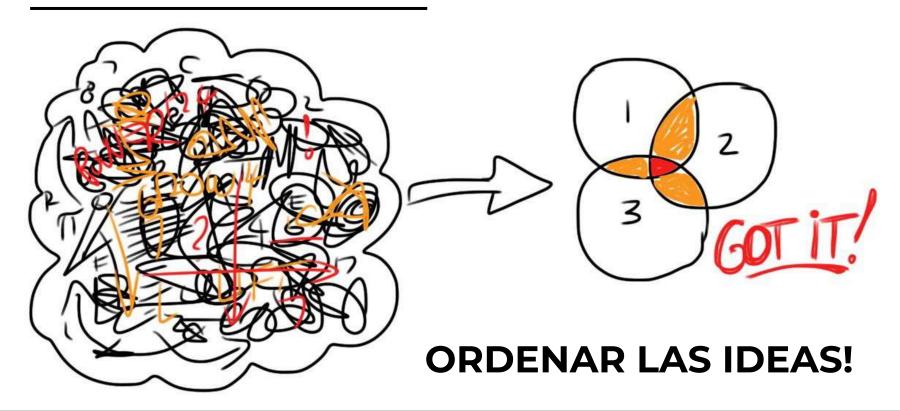

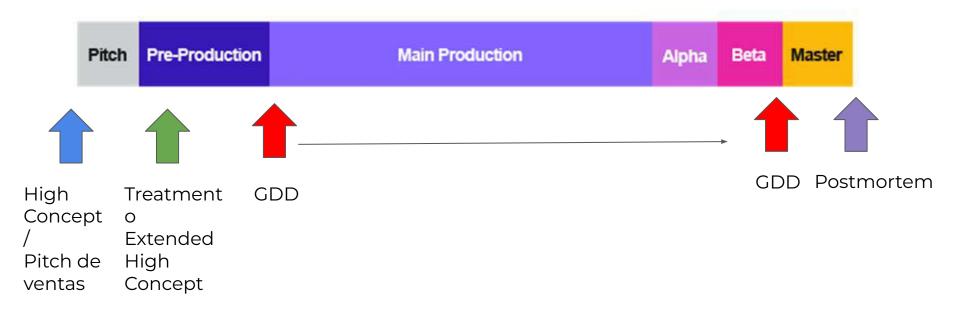

El template mágico No existe ni existirá! Magie Bame Design Doeument Template 的自由社会的公司的政治人工等的方面 COTESTS SEED THE PROPERTY OF T AN BUS DURANTER TO THE WELL THE WE ก) ผูดสำไขไรก็ จองหนึกษ์ ในเทษไร തുയാള്തയര് നര്നതയാട് പ്രേയ ര്ട്ട് GITURUS HARRISTON BERGARA SILVE STRUMBERO BOOK CERTIFICATION OF THE STREET 93-00 fa-36 Estendent u-AG est facado නමෙන්ට නම පුමුණ නුපමුවම එස ස එන්ට නමල සමුවම කදුරුපල එන්ට පමුණ එදවම නුපාද්යමේ

Ciclo y Documentación

Pitch Document

• Es un sumario, funky, concreto y de venta del juego que se hace generalmente para causar interés de un potencial cliente (para vender la idea)

Hay dos formas de hacerlo

- Interna: 1 a 3 páginas no hay necesidad de fancy graphs.
- Externa: Presentación visual descollante

Extended High Concept o Game Treatment

 Extensión del pitch o del High Concept Document con mas insight del juego en algunos aspectos puntuales.

Generalmente este es requerido por los publishers o stakeholders

- Va de 6 a 50 páginas (Dependiendo del tipo de pedido)
- Que areas incluir? Se hace según lo que se pida y haya que definir.

Game Design Document / Bible / Script

- Documento definitivo o serie de documentos que contiene cada aspecto del juego para comunicar con el equipo de desarrollo.
- Este incluye scripts, level design, wireframes, monetización, AI, y todas las áreas que haya que definir para el desarrollo del juego.

Postmortem Document

 Este documento es una forma de plasmar una lección aprendida sobre el proyecto. Aunque no esté directamente relacionado con Game Design, puede ser de gran influencia para futuros diseños.

 Este generalmente se hace una vez que el proyecto ha terminado, como un retrospective.

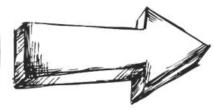

Type of Idea	Description	Value
Idea	Just a plain old idea	\$0.083
Cool idea	An idea that captures the imagination	\$5
Really cool idea	A cool idea, shouted	\$5
Good idea	An idea that someone could actually use	\$100
Good idea in the right place at the right time, sold convincingly	Just what it sounds like	\$1,000,000+

Game Pitch: Es un sumario, funky, concreto e increíble del juego que tenemos en mente, usado generalmente para causar interés de un potencial cliente.

Quién es más calificado para pichear?

Publishers

- Son menos los juegos que tienen éxito sin su ayuda.
- Los publishers toman mucho del riesgo pero también invierten, hace el márketing, distribuyen y manufacturan los juegos.
- Hay muchas chances de que uno trabaje con un publisher en el futuro.

- External Gamer Client
- Trabaja como otro cliente regular
- Puede que no sea un deal de publisher
- Tiene un profundo entendimiento de la Industria.

- External Non-Gamer Client
- Trabaja como cliente de su proyecto
- No es un publisher
- Tiene poco conocimiento de la Industria
- Es posible que venga con requerimientos fuera de lugar

- Internal Client (Team)
- A su equipo (pueden ser conocidos o no)
- Tienen expectativas de lo que uno puede hacer o dar.
- Tienen conocimiento de videojuegos e Industria

- Audience (Kickstarter)
- Probar porque el juego se tiene que hacer (llenar un vacío)
- Porque se tiene que hacer de determinada manera
- Porque nuestro equipo es el mejor y único para hacerlo
- Probar que es más que un juego.

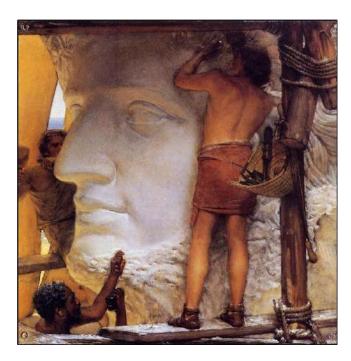

- Tres formas de lidear con clientes (no gamers)
- Aceptar sugerencias (Buenas o malas)
- Inmediatamente decirle al cliente porque tiene razón o no.
- Intentar preguntarle el porque de alguna sugerencia

Michelangelo and Soderini Tale

No puedo creerlo, acabo de pitchear esta idea increíble y no hay un solo interesado!! Qué le pasa a la gente?

Type of Idea	Description	Value
Idea	Just a plain old idea	\$0.083
Cool idea	An idea that captures the imagination	\$5
Really cool idea	A cool idea, shouted	\$5
Good idea	An idea that someone could actually use	\$100
Good idea in the right place at the right time, sold convincingly	Just what it sounds like	\$1,000,000+

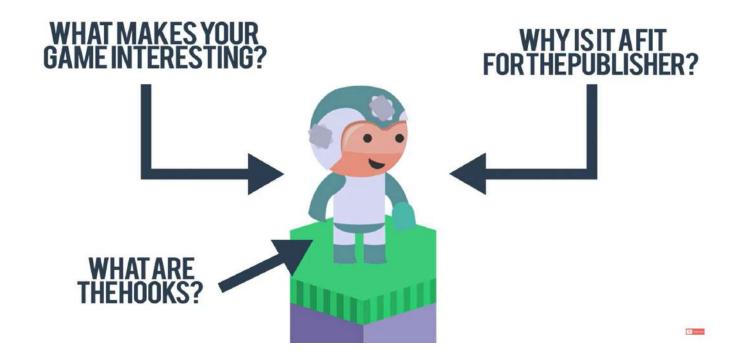

Cuando la idea no se acepta, hay que saber cómo reciclarla. Aprender de la experiencia. Tal vez hay que modificarla y buscar a alguien que le sirva.

GOC GAME DEVELOPERS CONFERENCE" | FEB 27-MAR 3, 2017 | EXPO: MAR 1-3, 2017 #GDC17

#23

You seem like you'd be a huge pain in the ass to work with.

Awesome Cover Art

- BOOM! Splash art para capturar la atención del que sea nuestro público y de paso crear un gancho con el juego.
- Ayudará a destacar nuestra presentación de otras que estén en la misma.
- Intentar vender el concepto del juego desde la primera página.

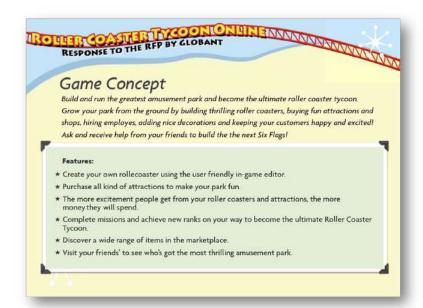

Concepto del juego

- Elevator pitch: Hacer el concepto del juego corto y claro. Hacerlo en una sola oración. Usar la estructura xxx meets yyy.
- High concept statement del juego resumir lo siguiente: Core gameplay, que tipo de género, objetivo del jugador y muy corto como se juega.
- Agregar una lista de unique features!
- Esta sección debería captar la atención del lector. Es clave que con esto el lector entienda de qué juego se trata.

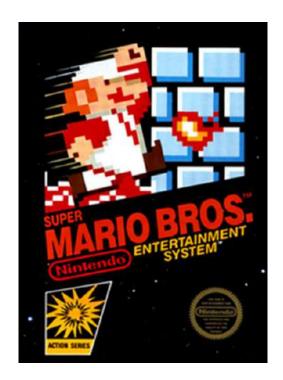

Controlás a Mario, un plomero saltarín que se encuentra en un mundo extraño de ladrillos y criaturas raras.

Movete de izquierda a derecha utilizando tu habilidad de salto para esquivar obstáculos, dispará o pisoteá enemigos y llegá hasta el final para rescatar a la princesa.

Market Overview y Oportunidad

- Cual es el mercado al que apuntamos? Mobile? Consola?
- Cuál sería la audiencia del juego?
 Casual? Hardcore? Agregar algunos números si es necesario.
- Por Qué es este mercado atractivo?

Género y competidores

- Describir tu juego y cómo encaja en el género seleccionado.
- Mostrar un claro entendimiento de la competición y números.
- Por Qué ese mercado es atractivo? Dar algunos números \$ (Gráficos si es necesario)
- Pregunta clave: Porque mi juego sería diferente?

Tu Equipo

- Mencionar quién está en tu equipo y en qué trabajaron antes.
- Cuanto más serio y experimentado el equipo mejor.
- Solo hacerlo con Miembros claves!
- Mostrar el track record como estudio y los premios que se han ganado.

Status actual y Plan

- Informar a la audiencia sobre el status actual del juego o proyecto.
- Cual es tu plan de alcanzar el objetivo? A donde estás ahora y cómo alcanzar el objetivo?
- También se puede informar un pantallazo sobre el esquema de monetización.

Art style & Mockups

- Hay que mostrar lindo Arte
 WIP, fake screenshots,
 mockups, hacerlo bien visual!
- También se muestra la propuesta visual del juego en cuestión.
- Poner a artistas a hacer un arte que le vuele el marote al que lo vea.

Gracias!

 Nunca hay que olvidarse de cerrar la presentación agradeciendo.

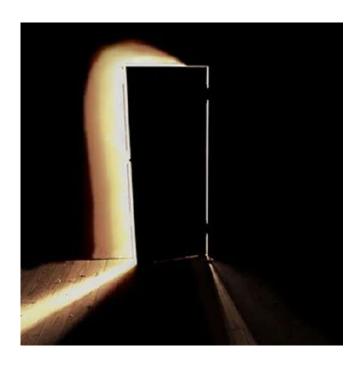

• Qué hay detrás de esa puerta? Acaso te interesa?

• Qué hay detrás de esa puerta? Acaso te interesa?

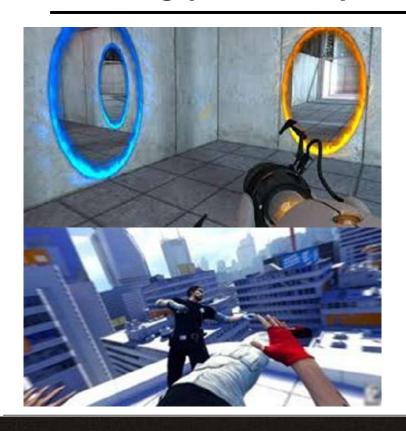

- Crear Misterio no es solo sobre la información faltante.
- Es sobre la información "puntual" faltante.
- La luz nos dice que hay algo misterioso detrás de la puerta.

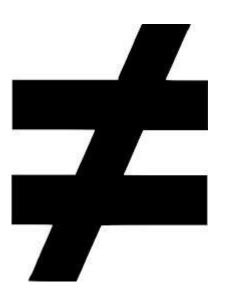

- Son los puntos, features, elementos o conjunto de elementos que hacen que tu juego sea único, diferente a los demás.
- En algunos juegos es sencillo poder diferenciar y exponer qué son los USP

Game Pillars

Hook

• En otros juegos es más difícil poder aclarar qué son los USP.

Hagan Research

Hagan research a quienes van a pitchear. No se confundan en intentar vender un juego mobile a un publisher para consolas.

Hagan Research

#18

"Can you help us negotiate a license deal with Marvel?"

Hagan Research

Nadie "compra" un proyecto de videojuegos por una buena propuesta de monetization.

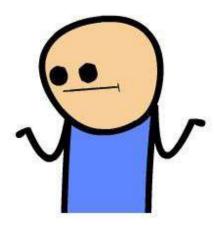

Facts sobre la Documentación

NADIE LEE LA DOCUMENTACIÓN

Documentation?

Ain't nobody got time for that

NADIE LEE LA DOCUMENTACIÓN

#1 Solución

Lead Programmer

NADIE LEE LA DOCUMENTACIÓN

#2 Solución

- Conocer a tu audiencia
- Crear buena documentación
- Organizar sesiones de Q&A
- Agendar algo de tiempo para leer
- Alentar a la gente a leer (Si hace falta imprimir y entregar los docs)

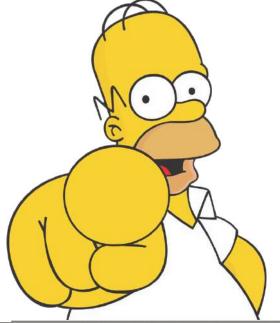

Usted sabe que es lo mejor para su equipo (Adaptarse a su equipo)

Sea Creativo en torno a la documentación

Diferentes Documentos

- Biblia o Script o Game Design
 Document
- Feature Brief GDD
- Design Wiki
- One Pager Document

- Game Design Overview o High Concept (DESIGN).
- Game Treatment (DESIGN)
- Detailed Design Doc (DESIGN).
- Story Overview (DESIGN).
- Level Design Document (DESIGN)
- Technical Design Doc (ENGINEERING).
- Pipeline Overview (ENGINEERING).
- System Limitations (ENGINEERING).
- Art Bible (ART).
- Concept Art Overview (ART).

Game Design Document (GDD)

(Documentos Masivos con TODA la información)

Pros

- Tiene absolutamente toda la info!
- Source definitiva de información
- Está todo en un solo documento
- El acto de crear el documento es el acto de diseñar el juego

Contras

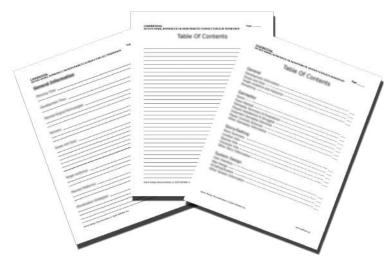

- Está todo en un solo documento (Algunos solo necesitan una sección del mismo)
- Es difícil de updatear (Más cuando hay copias impresas)
- Difícil de buscar info
- No es muy amigable cuando el trabajo es distribuido

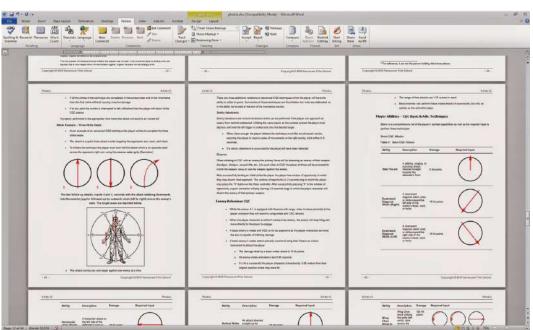

Game Design Document (GDD)

Ejemplos

Game Design Document (GDD)

Ejemplos

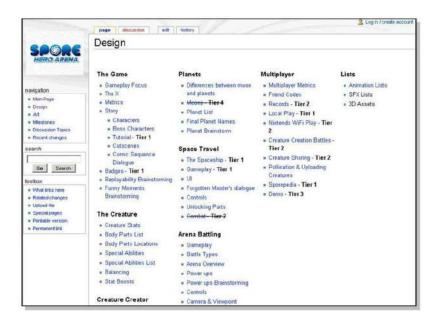

Wikis

Si necesitás un documento que contenga layers múltiples, categorías, temas, que sea fácil de acceder en el momento entonces debería pasar de GDD a wikis.

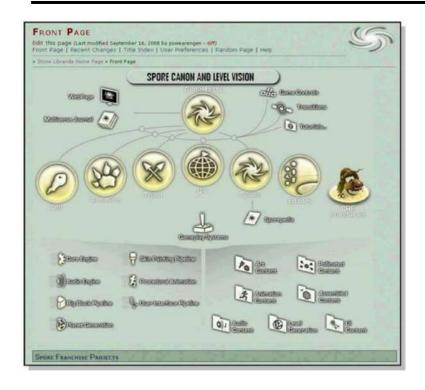

Cual puede ser la mejor herramienta para crear wikies? Una de las mejores es MediaWiki (Originalmente usada para crear wikipedia) y también TiddyWiki.

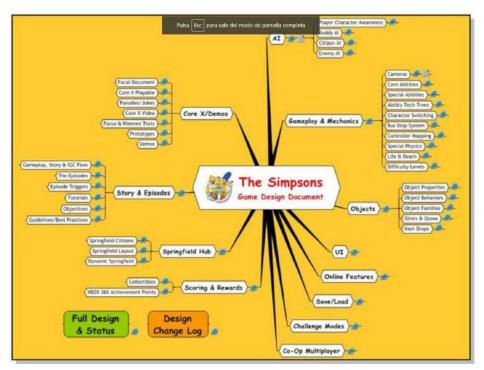

Wikis

Wikis

Pros

- Fácil de acceder
- Fácil de updatear
- Altamente colaborativa
- Tracking de historial.

Contras

- Requiere mantenimiento constante (probablemente alguien asignado 100%)
- A veces se coluta las relaciones de diseño.
- Limitaciones del viewport
- Limitaciones del formato.

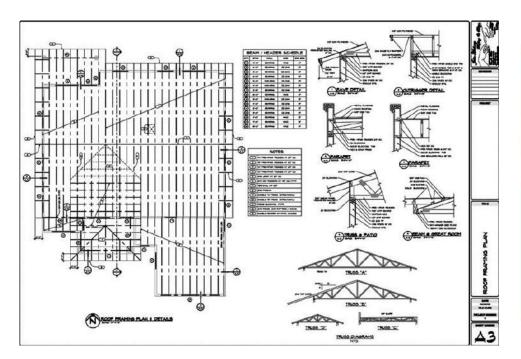

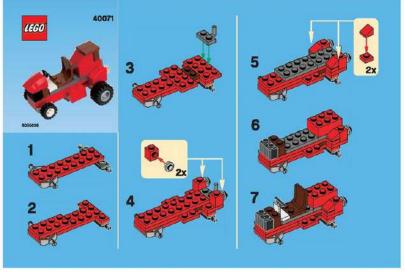

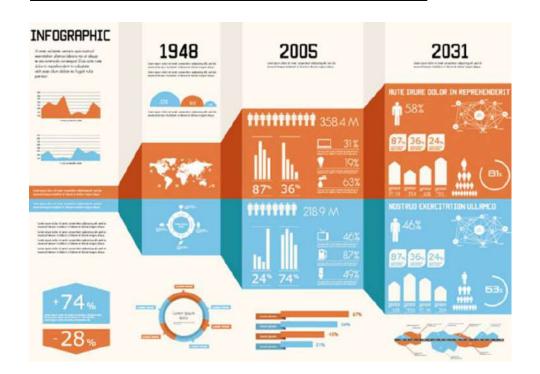

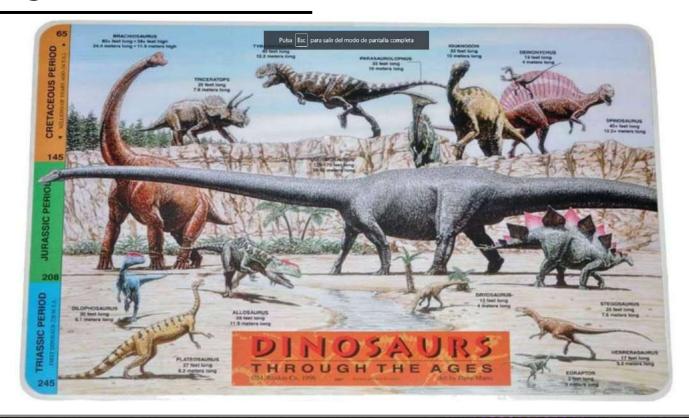

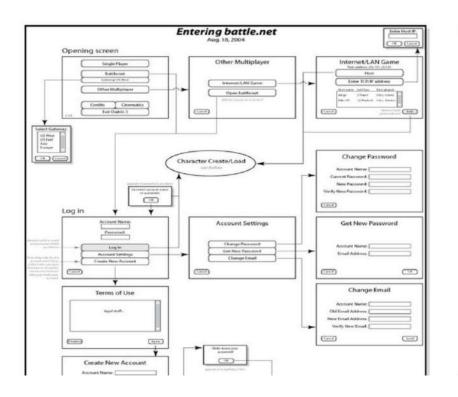

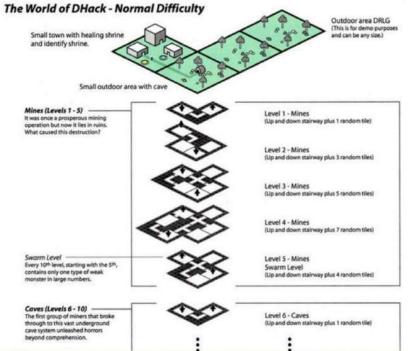

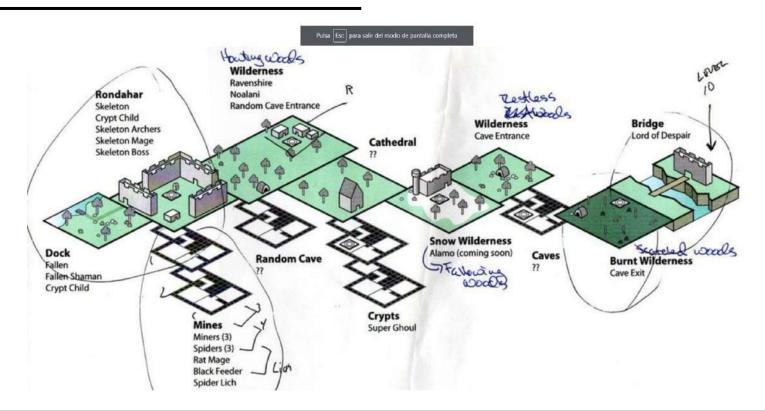

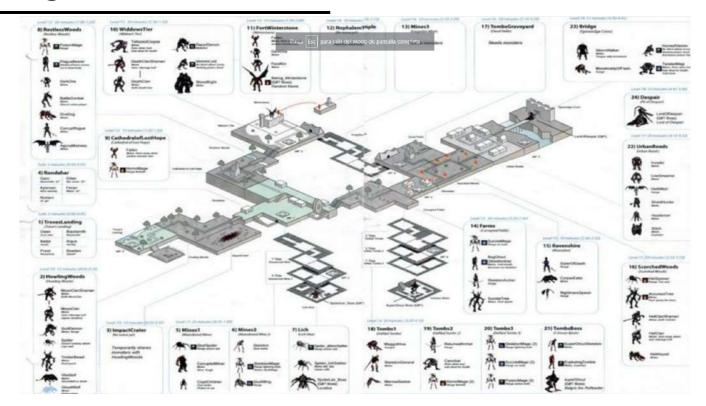

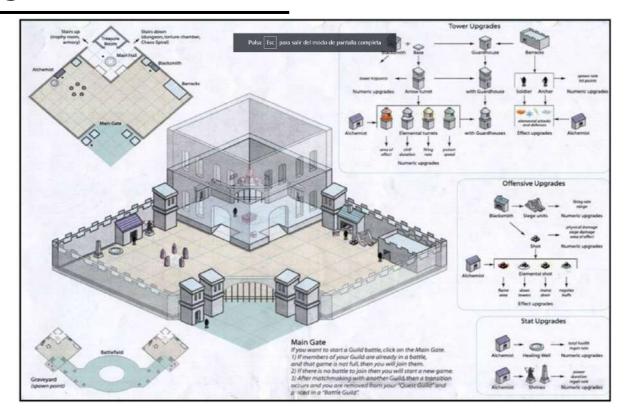

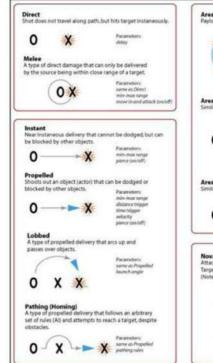

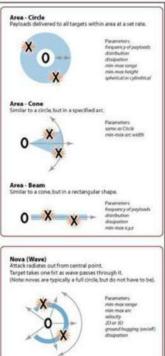

Demonic Mage

Fire Chain

Skill Category

Description

Fire streams from the Mage's fingertips and spreads in chains to nearby monsters, burning them over time. The Mage must remain still while this happens. If the Mage gets hit, moves or releases the mouse button, the effect is broken.

Diagram

Details

Target a single monster.

Medium range.

Click to create a flame rope that connects the Mage to the target. Attack continues as long as you hold down the mouse button, or until you get hit.

After 1 second the flame will leap from the target monster and connect to a nearby monster (if one is in

If the skill is leveled up, the flame will leap to additional monsters, in I second intervals, creating a

connected chain. A monster already connected to the chain will not be reconnected again.

Line of sight: Yes, for initial target. Additional targets need to be in LOS from previous monster, not from the caster.

Auto-hit: ves.

Blockable: no.

Mana usage: up front cost paid on click, smaller cost paid over time (while mouse button is held down).

Set up the Fire Chain skill on either the Left or Right slot.

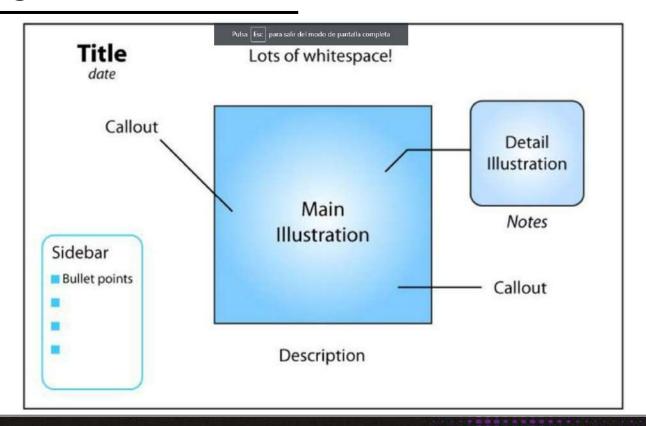

Click and hold on a monster.

If the Mage is not within range, he will walk within range and then start the attack.

Release mouse button to stop attack.

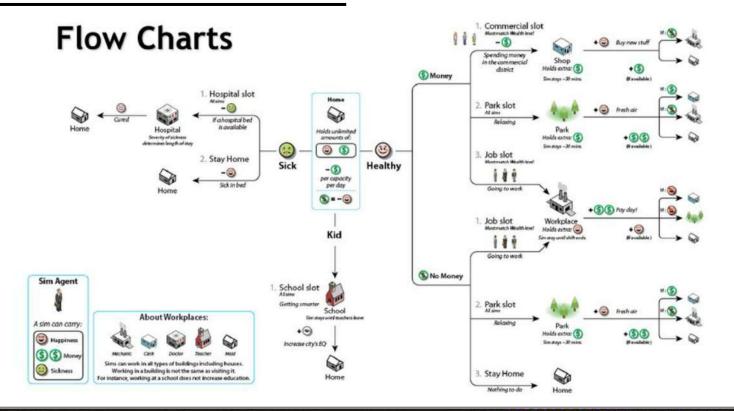

One Pagers

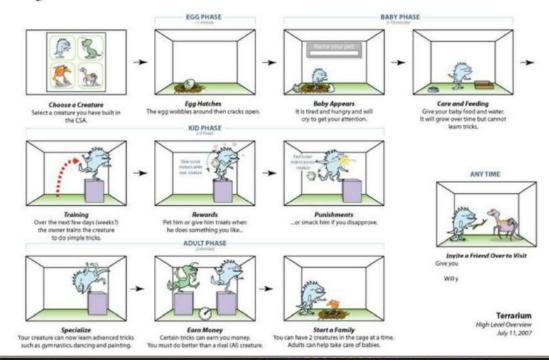

One Pagers

Storyboards

Mostrar el juego entero como un storyboard

One Pagers

Pros

- Fácil de compartir con otros diseñadores (Trabajo distribuido)
- Fácil de imprimir y entregar
- Un puede hacer fáciles anotaciones en las reuniones
- Fuerza a los diseñadores a entender

Contras

- Mucho trabajo para hacerlos
- No está toda la info
- Consume mucho tiempo

Sampling Cottonseed Lots for Aflatoxin Contamination

JAMES VELASCO, Agricultural Marketing Research Institute, Flielswille, Maryland 2070fc T.B. WHIYAKER, Courbern Division, Raleigh, Month Carolina 27006, and M.E. WHITTEN, Agricultural Marketing Research Institute, decorder, Maryland 20703

ABSTRACT

Large samples unfield "sublished" overs drawn from 41 commercial tota of contaminated contomines, Each subton was subdivided (see treaty 5 to samples which were analyzed for affattoon. The mean, rection, surface, coefficient of variation, and the extinuend range countries of entition, are the estimates taggs around the sample concentrations were com-sumed. The results indicated that (A) the variance among namely concentrations was large and use found to be a forestion of mapple concentration and

INTRODUCTION

The confirmation of affectable in continued cakes by Locatore, et al., (i) is England in 1964 prompted a mercy of extraorest products in the U.S. The results of a 2 year survey which became in 1964 industrial that afforcing coulsurvey which begin in 1994 depained that Hillican could be liqued in result of the cutton professing awas in the U.S. 12,15. Occurring appeared to be most common in regard arises when temperatures and pask bod overs infestation were high. Because of this reldense of contamination, the autism-

Secure of the relations of contamination, the authorized procuraging including inquests optimized by analyzing associate states from the late. One of the produces associated with the snapshop of agrandment products he affairment to that contamination genetally in reflactors to very said procure of the snapshop. Courtile, et al., (49 Innet Chil in practic tampies of low contimination only 12, 0.74% of in press; tangers of low contamination only in 0,24% of the individual furnits contained admission, while at higher contamination levels on 3% of the lemets were contaminated. In noticemed, Whitten (2) found that, our of 15h continued priced randomly from a highly contaminated sample (8000 pph), only 1% under no 12% contained allterms. Because of this extreme destribution, openinstration rempling to difficult, variation among explicates traducts be goted, and the difficult variation among explicates be may be expectaged; difficult to estimate with any degree of agree-INC. As a result, certain inferrest rate are associated with sampling. Samplin taken from a good for may mituate that the loss in bad (processors' max, and, as other times, sample from a toal for may andcate that the lot is good (consumer) max. For peaula, Whitaler, et al., (i., i) developed It system to revolute the necessary risk, processors risk, and the pasts associated with effective associated programs used by the pearest substry.

A similar study for command was needed to help the

entrement industry unitarity their rampling provinces. It was assumed that the approach Whitaker used for possume could be used for other agricultural procumedities, such as cottlement. Bowrise, because of the differences between pracule and continuend, such as also and will of individual A-room, social capations, and general, a yellow parameters developed for praints regist not be suitable for cottonseed. This paper desertion in empirical scale is which the vari-ability of replaced is speller taken from outcomed tols we measured. Results of this study provide the body informa-tion model to determine system parameters for the endo-stion of rethonored innuffing programs.

PROCEDURES

Ferry-one "valides" weighing in, 100 b) each were forwh in a random lassion toom 41 commends thesh lets (on, 26-2) time) of contomined contaminated with affa-lation. B was assumed that the distribution of alliadom among the cottonered in the sublots was representative of the distribution found in typical conservation. The iden-tities of two sublots work but during eligenees. Cottomand in those wore eligined in eight 55 to begin of 4 begins. The in these were chapted as eight 50 th beginnt of templots. The malebox were convenied by exhibitably convincing the sight large latio two groups of feet large each. Also a 50% beg-war but from one within theiring skipters, lovering that per-turalize subbit with 150%, thong artifle dividir, wath of the losty 200 to wishelve was decided that to I sampler of al. 100 sects. The remaining 150 to solvice was decided into fiduces 160 to seculor.

(10) such. The remaining 150 h solots was desired and. filten 10 h samples.

Each 10 h samples was passed flarough a flower extrainer sall with the boldes set to cruck the halfs of the seed. The send then was passed once a small heater to organize the transfer from the halfs.

terrorly from the buffs.

Biocome although show not continuously the buffs (1), they were discreted invertige on 5 th terrorly/morph. A country institute of a versue of 54-10 kernshifts or \$3,240 kernshifts or \$3,240 kernshifts. Buffs 5 is employ of berriefs was pussed through a submarphing soil (6), and a submarphing of on. 100 g commission material was analyzed for affairings by the method of Velaco 19). As a result, £11 subscripin,

the inition of Voluce 199, As a result, \$13 tubescepts, and representing \$1 but initials, were suppreted.

The result of the allianciat not for each \$16 sample in denoted as 1. For a sign-subsol, the time allianciat concentration, a, we estimated by receiving all usuals results, \$V\$, from that without. This redimends all turned concentration of each maked in denoted by \$V\$. Therefore:

Documentación en General

Game Concept Document – original design this Costs Mgh School Individuation to Video Game Design and Development

Create a Game Concept Document that will be presented to a game publisher or funding source. The teacher will play the role of game publishes.

Game Concept Document will be about 6 or more pages double-spaced containing discussions of each of the following with regard to your own game concept.

Game Overview

- Title: This may much the book title. You may also want a subtitle. For example if the book is "Animal Farm", a subtitle might be "Don't trust a living creature".
- Theme: What is the theree (usually philosophical) of your game? Are you trying to make a statement, promote an agenta, make a value padgment about good vs ayil? Common thames include survived, redemption, transcendence, and temptation. Discuss the theme in a paragraph.
- Summary: Provide a short summary of this game. What is the main storyline and player goal?
- Target Andlence Discuss the multaty too believe would be more interested in this
 game. Is it by age group, grodux, a family-releated game, or porests with their
 shifters? In the game relucations? In the game content for a broad enough
 authories to term of sales? In the game appropriat and which to global religiously
 game appropriate contents, or does the game appropriate and which to global religiously
 game appropriate contents, or does the game defined people by contenting standards?
- Selling Points: List unique features of your game. Will the art standow? Are the characters compelling and attract interest? In the story engaging due to its timeperiod or challenges?
- Goads and Player Meditation. What are your expectations for this games as a seperience? What moods are you attempting to achieve? Made start you polygood the like sof "Inn." Are you trying to provide excitoment, tension, superme, challegor, to amount, modalight, softens, five, or a "warm factory" feeting? To be you start publishers to create their own stories and chausters? What will drive the player to actually play the game to the ent? Diseasa, how the game will address these publishers.
- Competitive analysis: Ase there any game titles currently on the market that could be considered competitors of your game? Describe any of these titles and what competitive edge could your game have over this title.

Game Story (portions will be an update from previous assignments)

 Challenger. Oamsplay is comprised of challenges or obstacles fused by players throughout the game. Players exposed to those challenges by utilizing stuatypes, often represented by actions and player choices. Discuss some types of challenges and obstacles that a player character might face charing your gaine. Some examples

¿Cómo trabajamos?

Cada estudiante realizará su trabajo práctico y lo dejará listo en una carpeta.

La clase siguiente, se tomarán de manera aleatoria algunos trabajos para revisar que se hizo (se tratará de que no se repitan las mismas personas clase a clase).

El profesor dará feedback en base a lo que se vió y la idea es que ese feedback formativo sea aplicable para todas y todos quienes no fueron seleccionadas/os.

https://drive.google.com/drive/folders/1piQ6HOAGvGyHcFM07_u0AJz6NytF9vrh

Consigna

Cada estudiante tomará un elemento de la columna "Género" y un elemento de la columna "Temática" y deberá hacer un pitch de ventas, similar al que hicieron la semana pasada, pero en este caso con otra temática.

Intenten ser creativos pero al mismo tiempo propuestas que puedan hacerse ya que van a continuar trabajando este concepto a lo largo de las clases que quedan desarrollando y documentando esta idea.

Nro	Género	Temática
1	FPS / TPS	La inquisición
2	Puzzle	Lejano Oeste
3	Plataformero	Amor y Relaciones
4	Aventura Gráfica	Tema Musical
5	Deportivo	Campaña de San Martín
6	Hyper Casual	Futurista 2100
